

THE COMPLEX · JUNGLE FILM STUDIOS LIMITED

Building Jamaica's First Purpose-Built Film Soundstage

A production house and creative campus for Jamaica and the Caribbean.

THE GAP

Jamaica is a cultural powerhouse in music, film and storytelling, but there is no dedicated soundstage on the island today. The Complex is changing that, with a staged build that starts small and grows toward a permanent campus.

THE STAGED BUILD

1. **Equipment and mobile studio.** Production gear to start producing now.
2. **Multi-use hub in Kingston.** A leased hub for production, coworking, labs and events.
3. **20-acre creative campus.** Purpose-built soundstages and studios.
